AMENDMENT UNDER 37 C.F.R. § 1.116

Sir:

In response to the Final office action dated September 24, 2004,
Applicants request the Examiner consider the following amendments and remarks.

anode layer and a hole-transporting layer and a second pair of layers comprising an electron-transporting layer and a cathode layer, and wherein the forming of the organic EL element comprises forming the cathode layer, forming the electron-transporting layer, forming the luminescent layer, forming the hole-transporting layer, and forming the anode layer, in this order.

Yamazaki, Nakanishi, and Nakajima do not disclose the layers recited in claim 15. Toguchi discloses an organic EL device having an anode 2 on a substrate 1, a hole-transporting layer 3 on the anode, a luminescent layer 4 on the hole-transporting layer, an electron-transporting layer 5 on the luminescent layer, and a cathode 6 on the electron-transporting layer (Fig. 2). Toguchi does not disclose or suggest forming the cathode layer, forming the electron-transporting layer, forming the luminescent layer, forming the hole-transporting layer, and forming the anode layer, in this order. Rather, Toguchi discloses forming these layers in reverse order to that recited in claim 15. For this additional reason, the Section 103 rejection of claim 15 is improper and should be withdrawn.

Conclusion

If the Examiner believes that there is any issue which could be resolved by a telephone or personal interview, the Examiner is respectfully requested to contact the undersigned attorney at the telephone number listed below.

As it is believed the Application is in condition for allowance, a favorable action and a Notice of Allowance are respectfully requested.

Dated: December 23, 2004
